History

#1 - 02/28/2020 09:15 PM - Brian Flanagan

- Affected version changed from 0.9.4 to 0.9.5.1

Help_22 still runs too fast to function properly.
Perhaps we need a "slow" setting as well as "safe" on #speed: ?

#2 - 04/15/2020 04:34 AM - Brian Flanagan

- Status changed from New to Closed

Re-tested in 0.9.8 Test 2.
Demo was modified to compensate for speed differences. (Wait Vbl commands added at appropriate spots.)
