Description

There's a problem when adding a string variable to an Amal instruction string.

Example:-

Amal A,"Anim 0,(25,"+A$+")(26,"+A$+")(27,"+A$+")(28,"+A$+")(29,5)" // This works fine.

If it's changed to this:-

Amal A,"Anim 0,(25,"+A$+")(26,"+A$+")(27,"+A$+")(28,"+A$+")(29,"+A$+")" // Causes Syntax Error
