Description

On Amos the below code draws Red text on a white background, however it just draws the text in Red on Aoz, with no white background.
It doesn't seem to take into account the second parameter (paper) of the Ink command.

```
#manifest:"amiga"
#speed:"safe"
#splashScreen:false

ink 4,2 : text 100,100,"Hello"
wait key
```

- Affected version changed from 0.9.4 to Beta RC2

Retested in Beta RC2. Still a problem

The Ink color itself is working, however, the border and background color is not.
