

AOZ Studio Beta - Bug #294

When compiling an .aoz file NOT called main.aoz, the VSCode IDE compiles main.aoz anyway.

03/06/2020 07:38 PM - Brian Flanagan

Status:	Rejected	Start date:	03/06/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:			
Affected version:	0.9.7		
Description			
I did a "Save As" on main.aoz to create an alternate version of my program: Let's just say "Version2.aoz". When I select Version2.aoz, so it is not the current document, and attempt to compile it, VSCode compiles main.aoz anyway.			

History

#1 - 03/27/2020 05:39 AM - Brian Flanagan

- Affected version changed from 0.9.6 to 0.9.7

Changed from 0.9.6 to 0.9.7 Test 2.

This is still a problem.

#2 - 03/27/2020 08:08 AM - Francois Lionet

- Status changed from New to Rejected

In order to compile another file as main code, you have to have a specific manifest and indicate the name of the new file in it. Nothing has changed since the start... don't you remember the manifest? ;)
