Affected version:	0.9.6.4		

Description

It fails on line 61 with a syntax error at the Procedure's parameter.

Line 61:

```
procedure DB[y]
```

Error:

```
main.aoz:61:12: error: Syntax error
```

```
Task failed, no code generated...
```

It seems to have something to do with the Procedure's name (DB).

When I renamed the procedure AB, it worked.

I suspect some new or modified code has a conflict with the name DB.

- Status changed from New to Closed

Retested in version 0.9.7 Test 2. Fake Copper Effects demo is working again!
