Estimated time: 0:00 hour

Target version: 0.9.8.1 Affected version: 0.9.8

Description

Key repeat has stopped working on Inkey\$, so doesn't load another value until key is released and pressed again.

I think this was still working in 0.9.7.

Example:-

#manifest:"pc"

do

I\$=Inkey\$

If I\$<>"" then Print I\$;",";

Wait Vbl loop
