Target version:	0.9.9.4-r2		
Affected version:	0.9.9.4		
Description			
Lots of compile errors if the program includes 'match'			
e.g.			
<pre>dim search\$(15) for x=1 to 15 search\$(x)=chr\$(rnd(25)+65) print search\$(x); " "; next x print sort search\$(0) for x=1 to 15 print search\$(x); " "; next x print:print "Search. Blank to continue." b\$="x" while b\$<>" " input b\$ b\$=upper\$(b\$) print match(search\$(0),b\$) wend</pre>			
Commenting out the 'match' line lets it run.
