Description

In Amiga mode wait 1 means wait 1/50 second (or 1/60 second in NTSC).
In AOZ mode, wait 1 means wait 1 second.

Other timed functions, such as Every should be consistent on this as well.

In Amiga mode Every 1 means every 1/50 second.
In AOZ mode, Every 1 SHOULD mean every 1 second. (Right now, it's the same as in the Amiga manifest.)
