

AOZ Studio Beta - Bug #470

Quoted strings (by themselves) can compile!

09/09/2020 06:26 PM - Brian Flanagan

Status:	Closed	Start date:	09/09/2020
Priority:	Low	Due date:	
Assignee:	AOZ Studio Team	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	Beta 1		
Affected version:			

Description

This code compiled, and did not affect the functioning of the program:

```
Yep. There was No Print, no X$, no Data, and no comment markers.  
It was just a quoted string!
```

```
The interesting thing is that it didn't hurt the functioning of the compiled code.  
The lines before and after it were executed perfectly.  
It appears to have been ignored, like a comment.  
It really should produce a syntax error though.
```

History

#1 - 09/27/2020 05:10 PM - Francois Lionet

- Status changed from New to Resolved

Fixed!

#2 - 11/16/2020 09:39 PM - Brian Flanagan

- Status changed from Resolved to Closed

- Target version set to Beta 1

- Affected version deleted (Beta RC2)

Retested in Beta 1 - Works!
