

AOZ Studio Beta - Bug #49

PRINT CHR\$(255)

01/21/2020 07:31 PM - Paul Kitching

Status:	Closed	Start date:	01/21/2020
Priority:	Normal	Due date:	
Assignee:	Francois Lionet	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	0.9.3.2		
Affected version:	0.9.3		
Description			
Char 255 gives an internal error instead of a character y with dots above it, in AMOS.			
V 0.9.3			

History

#1 - 01/23/2020 08:43 PM - Baptiste Pillot

This problem has been solved by 0.9.3.1 :

- source : <https://www.amos2.fr/ide/Amos2/Ide/Program/442>
- run : <https://www.amos2.fr/run/tickleman/49/>
- output :

Ÿ

Strange thing : I tested with v0.9.3, it worked too.

Console :

```
Program ended successfully.
```

Could you please join your manifest.hjson, or better a zip of the directory containing your test case ?

I tested it in PC mode (default manifest), perhaps in others mode it does not do the same.

Thanks.

#2 - 01/23/2020 09:18 PM - Paul Kitching

I'm still getting it, but I'm using the AmosPro PAL Fullscreen manifest v7 from the templates. NOT the PC one.

#3 - 01/24/2020 08:23 AM - Francois Lionet

- Status changed from New to Resolved

- Target version set to 0.9.3.2

Fixed!

#4 - 02/01/2020 08:13 AM - Baptiste Pillot

- Status changed from Resolved to Closed

I confirm it works with the following manifest template file (hope I took the right one) :

manifest-1200-PAL-Fullpage.hjson
