

AOZ Studio Beta - Bug #522

Procedures called by Touch On Change don't run properly

09/29/2020 05:41 AM - David Baldwin

Status:	Closed	Start date:	09/29/2020
Priority:	Normal	Due date:

Target version:	Beta RC4		
Affected version:	Beta RC3		

Description

It seems procedures called by Touch On Change are not behaving as they should. When I try to use Goto Label from an If statement, the program just jumps to the next line after end if, not the label. Same happens when I try to Pop Proc. I've put together a demonstration:-

```
Touch On Change "Direction_Control"  
// Direct Procedure call - Only first line is printed, so Goto works  
Direction_Control  
// Now call from Touch On Change - Mouse click or touch  
Repeat  
Wait vbl  
until  
Procedure Direction_Control[X,Y,LASTX,LASTY,STATE]  
A=10  
locate 20,10 : Print "First Line, Goto Done next"  
If A=10  
Goto Done  
End if  
Locate 20,12 : Print "Second Line,Pop Proc Next"  
If A=10 then Pop Proc  
Locate 20,14 : Print "Third Line, none of these lines should be printed"  
Done:  
End Proc
```
