

## AOZ Studio Beta - Bug #665

### Alert boxes in AOZ Viewer do not wrap and/or scroll text properly.

02/16/2021 02:24 PM - Brian Flanagan

<b>Status:</b>	Resolved	<b>Start date:</b>	02/16/2021
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Baptiste Bideaux	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	1:00 hour
<b>Target version:</b>	1.0.0 (B10) u16		
<b>Affected version:</b>	1.0.0 (B4)		
<b>Description</b>			
The alert boxes work fine when running in Browser, but not in AOZ Viewer.			
The box should grow to fit text and/or allow text to scroll.			
See attachment.			
(Indirectly related to bug <a href="#">#662</a> . Aside from the AOZ style, alert boxes should function as they do in a web browser.)			

#### History

##### #1 - 02/16/2021 02:33 PM - Brian Flanagan

- File *Chrome\_Alert\_Scrolls.png* added

The alert in the snapshot was displayed by calling:

```
{ alert(Object.getOwnPropertyNames(aoz).toString()); }
```

##### #2 - 02/16/2021 02:42 PM - Brian Flanagan

I'd recommend wrapping on space, comma, or dash (similar to how a text editor or word processor wraps).

(Perhaps on ; as well?)

##### #3 - 02/16/2021 02:54 PM - Brian Flanagan

- File *Long\_Text\_Fail.png* added

Apparently, the alerts DO already wrap on spaces only, however, if the text is too long, they'll overflow vertically instead of scrolling and/or resizing the box. (See attachment)

##### #4 - 03/09/2021 12:21 PM - Brian Flanagan

- Assignee set to *Baptiste Bideaux*

Re-tested in 1.0.0 (B4). Still fails.

See also Bug [#662](#), [#666](#). Look at more detailed updates on bug [#666](#).

##### #5 - 03/09/2021 12:23 PM - Brian Flanagan

- Affected version changed from 1.0.0 (B3) to 1.0.0 (B4)

##### #6 - 03/20/2021 02:11 PM - Brian Flanagan

- Status changed from *New* to *Resolved*

Re-tested in 1.0.0 (B5). WORKING! :-)

##### #7 - 07/15/2021 10:50 AM - Brian Flanagan

- Status changed from *Resolved* to *Feedback*

- Priority changed from *Normal* to *High*

Now it's even worse. The alert box fails entirely when in AOZ mode.

(It works fine in the web browser.)

```
{ alert (Object.getOwnPropertyNames (this)); }
```

**#8 - 09/06/2021 06:38 PM - Brian Flanagan**

- Status changed from Feedback to Resolved

- Target version set to 1.0.0 (B10) u16

Re-tested in 1.0.0 (B10) u16

Works!
