AOZ Studio Beta - Bug #689

When attempting to delete an application folder, the wrong information goes to the warning box. It also doesn't delete anything.

Target version:				
Affected version:	1.0.0 (B4)			

Description

For example:

I tried to delete an AOZ Application.
I right-clicked on "AA Test" in the project pane and selected "Delete".
The result was:

```
The file "undefined" will be permanently deleted? Continue
```

I see three problems with the dialog:

1. Of course, it should pas the folder name (vs. getting "undefined").
2. Secondly, where the ? is should be a period.
3. Lastly, the ? should be after Continue?
4. When I clicked OK, nothing was deleted.

History

NOTE: I can delete individual files successfully. The problem comes in when you're deleting a folder (like an AOZ application's folder).

#2 - 03/19/2021 09:17 PM - Brian Flanagan

- Status changed from New to Resolved

Re-tested in 1.0.0 (B5). Deleting an application folder is working properly now.
