

AOZ Studio Beta - Bug #735

Line Input doesn't work when getting array elements.

04/23/2021 08:38 PM - Paul Kitching

Status:	Resolved	Start date:	04/23/2021
Priority:	Normal	Due date:	
Assignee:	Francois Lionet	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:			
Affected version:	1.0.0 (B10) u16		

Description

Line Input only works with simple variables. This gives a value of 0 for the text lines that are trying to go into the array:

```
#manifest: "aoz"  
#splashScreen:False  
cls 0  
Open In 1, "datafile"  
Line Input #1,Q  
print Q  
Dim QUESTIONS$(Q, 6)  
For COUNT=1 To Q  
  For COUNT2=1 To 6  
    Line Input #1,QUESTIONS$(COUNT,COUNT2)  
    print "|";QUESTIONS$(COUNT,COUNT2);"|"  
    //wait key  
  Next COUNT2  
Next COUNT  
Close 1
```

datafile has a number on the first line, then some text on each line below.

History

#1 - 09/19/2021 06:30 PM - Paul Kitching

- Affected version changed from Beta 7 to 1.0.0 (B10) u16

Still a problem in Beta 10.

The file has this:

3

One

Two

Three

and the output is this:

```
3  
|0|  
|0|  
|0|
```

Instead of displaying the words, it's showing a 0.

#2 - 09/28/2021 05:24 PM - Francois Lionet

- Status changed from New to Resolved

Fixed!
