AOZ Studio Beta - Bug #749

Clear Key not working properly

05/14/2021 07:23 PM - Paul Kitching

Status:	Resolved		**Start date:**	05/14/2021
Priority:	Normal		**Due date:**	
Assignee:	Francois Lionet		**% Done:**	0%
Category:			**Estimated time:**	0:00 hour
Target version:				
Affected version:	Beta 7			

Description

```
pen 1
do
    locate 1,1:print rnd(10)
    if key state(80)                        // p to pause
        locate 0,4:centre "Paused"
        wait 0.5
        clear key
//x$=inkey$
        while inkey$=""
            wait vbl
        wend
        cls
    end if
    wait vbl
loop
end
```

Pressing p should pause until you press a key again, but it doesn't. If you remove the clear key and add in the x$=inkey$ (to clear the buffer) it then works.
