There was a typo in the example, but it doesn't affect the results.
The bar command should read:

```
    Bar xPos,0 To xPos+15,Screen Height-1
```

There are still black lines below and to the right of each bar, which should not be there.

Should be fixed in beta 10! Thanks Dave. :)

#3 - 09/08/2021 01:35 AM - Brian Flanagan

- Status changed from New to Resolved

- Target version changed from none to 1.0.0 (B10) u16

Re-tested in 1.0.0 (B10) u16 (9/7 rev)
Working!
