

AOZ Studio Beta - Bug #787

List Bank is no longer working. (Transpiles incorrectly.)

Target version:	1.0.0 (B8) u15		
Affected version:	1.0.0 (B8)		

Description

This used to work in both manifests.
Now it transpiles incorrectly.

List Bank

Transpiles as:

```
aoz.banks.listBank(%bankIndex);
```

Which causes it to fail with: **Unexpected token %**

It probably *should* transpile as:

```
aoz.banks.listBank();
```

(It works that way, but the output is formatted improperly.)

Apparently, this has been RE-broken!

(Making a new ticket.)
