

AOZ Studio Beta - Bug #790

Collisions not working properly on skewed bobs

06/27/2021 02:30 PM - Paul Kitching

Status:	Feedback	Start date:	06/27/2021
Priority:	Normal	Due date:	
Assignee:	Francois Lionet	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:	1.0.0 (B8)		

Description

Move over the text for collision, then click and move over it for no collision unless you are at the non-skewed position:

```
#splashScreen:False
text 20,20,"testing collisions with this bob of text"
get image 1,18,0,270,30:get image 2,22,10,5,5
bob 1,200,200,1
flash off:curs off:cls:ink 1:box 200,200,270,30
locate 0,2:print "Click to skew. Collision detection only works on non skewed position."
do
  bob 2,x mouse,y mouse,2
  if bob col(1,2) then locate 0,0:print "Collision" else ink 0:bar 0,0,300,50
  if mouse key<>0 then bob skew 1,1,0.5
  wait vbl
loop
```

Using Beta 8, update 14

- Status changed from New to Feedback

It is not on the list of things to do for the moment... a lot of extra work for a feature that is very rarely used... sorry ;)
