

AOZ Studio Beta - Bug #808

Parameters not working properly on Instruction command with AOZ code.

08/08/2021 04:38 PM - Brian Flanagan

Status:	Closed	Start date:	08/08/2021
Priority:	High	Due date:	
Assignee:	Francois Lionet	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	1.0.0 (B10) u16		
Affected version:	1.0.0 (B9) u16		
Description			
Example:			
<pre>Instruction "Regular Polygon", x,y,radius,sides startX=x startY=y Print startX,startY,radius,sides End Instruction Regular Polygon 100,100,50,5</pre>			
The above returns: NaN NaN undefined undefined			
This bug can be circumvented by grabbing the JavaScript equivalents of the parameters:			
<pre>Instruction "Regular Polygon", x,y,radius,sides startX = { vars.x } startY = { vars.y } radius = { vars.radius } sides = { vars.sides } Print startX,startY,radius,sides End Instruction Regular Polygon 100,100,50,5</pre>			
...which prints the proper results: 100 100 50 5			

History

#1 - 08/09/2021 11:11 AM - Brian Flanagan

- Priority changed from Normal to High

#2 - 09/06/2021 07:42 PM - Brian Flanagan

Re-tested in 1.0.0 (B10) u16

Still fails.

#3 - 09/06/2021 07:43 PM - Brian Flanagan

Now, instead of NaN, it gets Internal Error.

#4 - 09/06/2021 07:47 PM - Brian Flanagan

Also... the work-around no longer works.

#5 - 09/07/2021 06:05 AM - Francois Lionet

- Assignee set to Francois Lionet

Fixed, for good this time...

#6 - 09/08/2021 10:31 AM - Brian Flanagan

- *Status changed from New to Resolved*
- *Target version changed from none to 1.0.0 (B10) u16*

Tested in 1.0.0 (B10) u16 (9/7)
Works!

Thanks, Francois!

#7 - 09/18/2021 01:13 AM - Brian Flanagan

- *Status changed from Resolved to Closed*
