AOZ Studio Beta - Bug #815

Direct mode editing problem.

09/05/2021 10:06 AM - Brian Flanagan

Status:	Resolved		**Start date:**	09/05/2021
Priority:	Normal		**Due date:**	
Assignee:	Francois Lionet		**% Done:**	0%
Category:			**Estimated time:**	1:00 hour
Target version:	1.0.0 (B10) u16			
Affected version:	1.0.0 (B10) u16			

Description

When in Direct Mode, if you try to edit a line you've entered, when you move the cursor back it only lets you type 1 letter, then jumps to the end of the line, instead of leaving the cursor where it is.

I can still edit the line, but through a very tedious process of, type a letter, move the cursor back, type another letter, move the cursor back, etc. When I finish though, it does work.

History

#1 - 09/07/2021 05:53 AM - Francois Lionet

- Status changed from New to Resolved

- Assignee set to Francois Lionet

Fixed!

#2 - 09/08/2021 10:52 AM - Brian Flanagan

- Target version changed from none to 1.0.0 (B10) u16

Re-tested in 1.0.0 (B10) u16 (9/7)
It's working now!
