

AOZ Studio Beta - Bug #828

Get image error Amiga Manifest

09/19/2021 01:52 PM - malcolm harvey

Status:	Closed	Start date:	09/19/2021
Priority:	Normal	Due date:	
Assignee:	AOZ Studio Team	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:	1.0.0 (B10) u16		
Description			
Using the code below gives...Get Image illegal or error function call , 11-57 This worked fine up until and including Update 15 Beta 8. (Amiga Manifest mode).			
<pre>six1imagex=245 //Get Inventory Object..... six1imagey=68 Get Image 2,1,six1imagex,six1imagey To six1imagex+10,siy1imagey+10</pre>			

History

Check code, the error is a new thing, caused by a negative height. Your example code has a error - the last var siy1imagey SHOULD be six1imagey, and so is zero, so is generating an illegal height of -57.

- Status changed from New to Closed

malcolm harvey wrote: (This was a miss print in only one section of code, oddly enough it was correct in all other places. But it seams as dave & phil point out now, the last two parameters should be ammount to grab x,y or 10,10.

Using the code below gives...Get Image illegal or error function call , 11-57
This worked fine up until and including Update 15 Beta 8. (Amiga Manifest mode).

```
six1imagex=245      //Get Inventory Object.....  
siy1imagey=68  
Get Image 2,1,six1imagex,siy1imagey To six1imagex+10,siy1imagey+10
```
