Description

Inverse and Underline have been implemented, however, the following aren't working:

```
Shade On : Shade Off
Set Text 2 ' bold
Set Text 4 ' italic
```

For example:

```
Print "Normal"
Print
Print "Text FX Commands:"
Inverse On : Print "Inverse"
Inverse Off

Shade On : Print "Shaded"
Shade Off

Under On : Print "Under"
Under Off

Print
Print : Print "Set Text"
Underline = 1
Bold      = 2
Italic    = 4
Set Text Underline : Print "Underline"
Set Text Bold : Print "Bold"
Set Text Italic : Print "Italic"

Print
Print "Bold, Italic, Underlined, Shaded, and Inverted"
Set Text %111
Inverse On
Shade On
Print "ALL"
```

Most things fixed, outline to do. Requires 'Brian' testing :)
Also, line between papers fixed, but now artefacts (paper overlap) are more visible when lines of different lengths and papers follow one another.
