

AOZ Studio Beta - Bug #863

Randomly and only sometimes delayed help appears on an item f6

11/12/2021 01:29 PM - malcolm harvey

Status:	Closed	Start date:	11/12/2021
Priority:	Normal	Due date:	
Assignee:	AOZ Studio Team	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:	1.0.0 (B11) u17		

Description

Sometimes if you have the cursor over say an instruction and you press f6 in the ide, it should bring up the help and then the item in question or items that are relevant. Sometimes before the items appear in the help window, the help comes up or its windows but there is a blank window as in the screenshot instead for ages before that help eventually appears.

This was a new thing I noticed in the last 2-3 versions which has crept in.

Again only sometimes this happens, other times not at all for a long time. Quite rare but random when it happens all the same. Sometimes you have to click another item then back to whatever it was to get it to appear.

History

#1 - 05/23/2022 11:12 AM - malcolm harvey

- Status changed from New to Closed

Seems to be corrected in a later version.
Closed for now.
