<b>Target version:</b>	none		
<b>Affected version:</b>	1.0 (u38)		

#### Description

Read down from here below link (In release share about channel).

Yes, this has happened twice for two different users with ubuntu installs.

<https://discord.com/channels/653893653940404224/777642924275400715/914566998032265267>

..

I did think this was now corrected for a) & b) need to double check and also there seems to be for slashes and backward slashes when extracting .aozip files.

..

#### History

##### #1 - 11/28/2021 09:17 PM - malcolm harvey

- File *ubuntu aozip.png* added

- File *ubuntu install.png* added

The issues themselves.

..

re: (linux ubuntu) install....

Installer error on Ubuntu (21.10).

Can't find user folder (???). It creates a dir on /home/user/AOZ\_Studio but stuck there.

if self.userFolder == "":

messagebox.showerror( "Oops!", "Unable to find the User folder. The installation programm will stop." )

exit( 0 )

re: (aozip) extraction...

..

This was noted as well that was found useful when extracting .aozip files (ubuntu) which are saved packed up aoz zip files.

..

```
7z rn .aozip $(7z l .aozip | grep " | awk '{ print $6, gensub(/, "/", "g", $6); }' | paste -s)
```

##### #2 - 05/05/2023 07:34 AM - malcolm harvey

- Status changed from *New* to *Closed*

- Affected version changed from *1.0.0 (B11) u17* to *1.0 (u38)*

I'll close this now as my last test was successful now. Did not get stuck jammy jellyfish 22.04+ (Ubuntu).

I'll reopen in the future if this re-occurs.
