#### Description

Trying to load a converted data bank into bank 9.

Have tried numerous combinations of file names with no success. As a last resort, moved '1.bin' to a folder called df0 in filesystem (because I know that works for loading other things such as IFF screens) and just get an unexpected token error in runtime.

Code is here:-

```
Reserve As Data 9,400
Bload "resources:9.data/1.bin",9
```

This is the section of application.js with the Syntax Error: unexpected token ":"

```
// Bload "resources:9.data/1.bin",9
this.aoz.sourcePos="7:0";
return{type:12,waitThis:this.aoz.thisFilesystem,callFunction:"bLoad,waitFunction":"load_wait",args:["resources:9.data/1.bin",%address,undefined]};
```

Still not working. Or am I missing a file (tested on the online IDE + into AOZ Studio 0.9.6 Windows) ?

AS far as I know, this is now fixed.
