<b>Target version:</b>	none		
<b>Affected version:</b>	1.0.0 (B16) u25		

#### Description

When you open an aozip file in aoz (currently it goes or unzips into your (for windows people anyways) downloads folder) eg:  
C:\Users\username\Downloads

It the creates the folder name there of the same name.

It should extract to your aoz applications folder in the same name folder there and then open that .aoz file

- Status changed from *New* to *Resolved*

Fixed! Now the AOZIP extracts into the "My Applications" folder.
