

AOZ Studio Beta - Bug #967

KEYS: as a label will stop AOZ from working

12/05/2022 08:51 AM - Alex Vac

Status:	Resolved	Start date:	12/05/2022
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:	1.0.0 (B16) u27		

Description

Having a label called KEYS: in a program and AOZ will not build new version in either Viewer or browser. It will just run the previous old one with No displayed errors or messages.

To reproduce/test just add the line KEYS: in any program. Delete the line and it works again. Variations like INKEYS: or KEYSS: however works fine so it's very specific.

History

#1 - 01/19/2023 04:57 AM - Francois Lionet

- Status changed from New to Resolved

It now generates a syntax error, as KEYS is a reserved keyword...
